1.1 PROBLEM DESCRIPTION

In cases of missing persons, the police use manual reports, and with the increase in cases of disappearances, families of the missing face a problem going to the police and submitting reports to find their lost due to the length of the procedures and the waste of time and effort that can be made in the search. In order to submit a report, the guardian of the missing person goes to the police station and takes a waiting turn, and among the conditions for submitting the report is that 24 hours must pass since the person's absence to report his loss, attach a list of the names and addresses of the missing person's family and close relatives, bring 4 photos of him and bring his health record. Also, some people are ignorant of the steps for the correct action in the event of finding a missing or lost person who needs help

1.2 APPLICATION DESCRIPTION

- Helps families of missing persons to quickly report missing persons without going a long way to go to the police station
 - Assists the police in receiving reports of missing persons
 - Initially, the missing person's reporter will enter their personal information and contact methods
 - After that, the reporter enters the specifications of the missing person, where he enters (name, age, hour of missing...)
 - After that, the report is sent to the police station and alerted on all mobile phones
-
